Hortobágy Wild Animal Park

The Hortobágy Wild Animal Park based on the natural conditions of the Hortobágy National Park. This is a perfect place for the demonstration of the ancient wildlife of the Hungarian Puszta. The Hortobágy Wild Animal Park presents some of the animals living here before the appearance of man, but driven to extinction by the spread of civilization, eg. wolves, jackals, Przewalski's Horses, vultures, pelicans. Visitors can also see other wild animals still living in the protected areas such as wildcats, foxes, polecats, white-tailed eagles, cranes, great white egrets. The wildlife park offers nature programs, where all generations can have enjoyable pastime activities. An exhibition about the ancient wild life of the pusztán and a souvenir shop with buffet and a play ground are also available in the wild animal park. The design of the animal-runways offers excellent photographic opportunities.

EXTRA SAFARI

The large grazing animals can be observed closely during an extra safari program. Visitors can travel by a land rover with expert guidance among the wild horses and aurochs. The program has an extra fee and takes 20 minutes, maximum 7 persons can take part in it. The extra safari depends on the weather conditions.

Application for the extra safari:

In advance in the Hortobágy National Park Visitor Centre.
On the spot at the souvenir shop.
